

TENTSILE

Tentsile Tree Tents 2018

## If we're all hanging out in trees, they can't cut them down

At Tentsile, we love trees. Everything we do is about saving trees and inspiring others to love trees too. Our Tree Tents allow people to hang out in the forest in complete comfort; after all, if we're all hanging out in trees, they can't chop them down.

# Get Back Into The Trees

In 2010, inspired by the idea that trees could be best saved by having people live in them, treehouse architect Alex Shirley-Smith strung up a prototype of a collapsible treehouse in his living room. The prototypes scaled up in size until a working design was finalised and went viral after being published on inhabitat.com.

In 2011, Tentsile began developing a range of Tree Tents, introducing their Flagship design, *"Stingray"* to the market with great critical acclaim. This all-season, three person model was followed by a modular two person *"Connect"* Tree Tent (again all seasons) which can also connect to other Connects to form a giant Tree Tent. 2013 – The team followed up with the *"Trillium"* three person hammock which can be converted into the Vista Tree Tent.

Everything we do is about saving trees and inspiring others to love trees too. Our Tree Tents allow people to hang out in the forest in complete comfort; after all, if we're all hanging out in trees, they can't chop them down. This ultra-light tensioned shelter quickly became a best seller and is perfect for taking camping to even further corners of the world.

We are explorers, pioneers, inventors, environmentalists. But most of all, we love hanging out in the forest and feeling surrounded by the beauty and majesty of trees. This is why we started Tentsile.

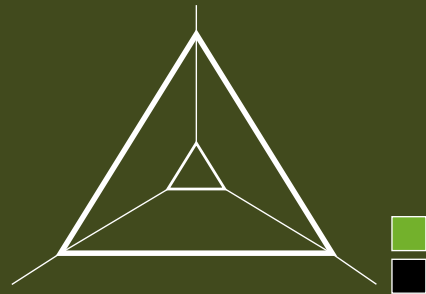

Play. Camp. Explore.

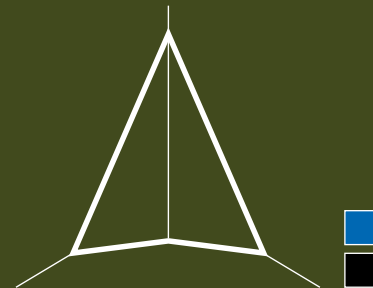

# Tentsile range

Tentsile Tree Tents are portable treehouses. Quick and simple to set up, modular, infinitely versatile and can be set up anywhere.

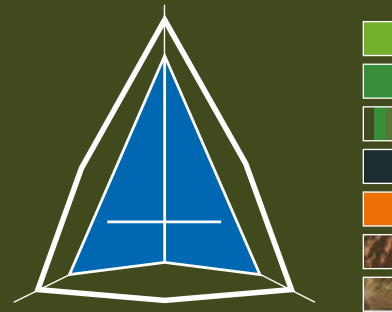

They combine the comfort and versatility of a hammock with the security and multi-person use of a tent. Tentsile Tree Tents allow you and your friends to enjoy the great outdoors on a whole new level, in unprecedented comfort, unrestricted by ground conditions and with increased separation from inhospitable terrain, floods, snakes, insects and other predators.

# Safari Stingray - New for 2018

The Safari Range has been created for those of you that want the most robust, and enduring of camping TENTS IN THE WORLD. Made from the highest quality, toughest UV resistant material available, you will find that these tents can be left up for months at a time and with good maintenance can last up to five years in the harshest conditions.

Perfect for more permanent camps, rentals, Airbnbs and festivals, these tents are made to withstand extreme climates and high volume of occupant turnover. There is nothing you can throw at this material that they cannot handle (except fire and knives!)

- 5 Year Guarantee on Safari Range models
- 15 minute setup time
- Heavy duty rainfly
- Heavy duty insect mesh
- Upgraded floor material for use in more extreme conditions
- 4 Doors

**Setup Size** 4.4 x 4.4 x 4.4m / 14 x 14 x 14'

**Weight** 11kg / 24lbs

**Maximum Load** 400kg / 880lbs

# Stealth - New for 2018

This model boasts three separate entrances, one on each side of the tent. Each occupant has their own generous hammock berth, storage space in the central Tower Shelf and ability to modulate ventilation in their area of the interior cabin.

The three adjustable hammocks inside can be further separated or combined using the underfloor strap-system with a simple loosening or tightening of the seat belt strap. The interior is completely insect proof, rain proof and UV resistant, made from no-see-um mesh and easily covered by our clip-on 3000hh rainfly. The whole roof can also be fully removed to leave an uncovered, reinforced Trillium Fabric floor for unobstructed views of the trees overhead.

- 10 minute setup time
- Central storage System
- Removable Rainfly with 5 colour options
- Doors on every side
- 240D inclined joint nylon-polyester composite floor reinforced with 20+m of seatbelt webbing

**Setup Size** 4.1 x 4.1 x 4.1m / 13.5x13.5x13.5'

# Flite+

The ultra-light hiking solution. This small and portable micro tent bridges the gap between a Tree Tent and a camping hammock.

The sleeping bed consists of a double tensioned hammock with a dividing strap down the middle that can be adjusted to create 1 or 2 hammock berths for solo or dual camping.

Affordable, light and small - what everyone has been asking for. Here's to you Hikers.

- 10 minute setup time
- Removable Rainfly in a range of colours
- Tear resistant insect mesh
- 360° view without Rainfly
- Packed weight of 3.2kgs/7lbs
- Light weight, perfect for hiking

<b>Setup Size</b>	3.25 x 3.25 x 2.7 / 11 x 11 x 9'

# UNA - New for 2018

The Tentsile UNA is our first single-person Tree Tent with removable Rainfly, offering you the chance to hike into the outback even further for a whole new level of freedom.

This single person model is the lightest Tree Tent solution in the world, perfect for hikers and backpackers so that they can walk further, carry less weight and get the most comfortable night's sleep imaginable.

It features a tensioned hammock bed with large pockets on each side, full no-see-um mesh top with a fold away door and a removable Rainfly for unbeatable views. The rain fly can be pegged out towards the ground, creating a large 25ft<sup>2</sup> / 2.25m<sup>2</sup> covered area so you can use the floor to store your gear beneath the tent.

- 10 minute setup time
- Single person
- Removable Rainfly with 5 colour options

- Ultralight weight. Perfect for hikers

# We plant 18 trees for every Tent sold

At Tentsile, one of the things we pride ourselves most on is our commitment to trees. And, certainly, we are always more than willing to repeat our mantra that “if we’re hanging out in them, they can’t be cut down”! Simple.

We honour the tree. We enjoy their company. We respect their wisdom, and we are humbled by their size and talent. Indeed, the very idea of Tentsile was born out of savouring the tree, living within them, walking among them, playing inside them, and, of course, learning from them - learning what they offer, learning what they’ve seen, learning how they themselves help protect us and the world around them.

Alex Shirley-Smith, CEO

At Tentsile we love trees; we respect the World’s forests, and inspire others to do the same. We are committed to conserving trees and helping replant deforested regions around the globe.

For every tent purchased we make a donation to plant three trees with our partners: Arbor Day Foundation, Eden Projects and WeForest.

So far we have supported the planting of around 155,000 trees in projects located across Madagascar, Zambia and Oregon.

Follow our #BecomeOneOfTheMillion campaign and keep up with our progress as we work with each of these organisations to plant 1 Million trees over the next 5 years.

**eden project**
